

Owner/Pilot Operator Maintenance Defined-New and Improved

During this briefing we will clarify exactly what preventative maintenance is and who can perform it. We will give you handy references and show you where to get them. Should you do a logbook entry when you perform preventative maintenance? Can you supervise someone else performing preventative maintenance?

Directions: All attendees - Enter through the main building and turn left down the hallway into the first room on the left. "Prior to attending a safety seminar please review and abide by current CDC, State and Local health guidelines."
